DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 to 95 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ashley et al or Altmann et al. Each of the references discloses the instant compounds and well as pharmaceutical compositions containing the compound alone or in combination with other pharmaceutical compounds as the active ingredient. Note in column 30 of Altmann et al parenteral compositions. The use of these compositions to treat cancer, Ashley et al, and tumors, Altmann et al, is also disclosed. The instant claims are considered to be prima facie obvious over the cited references absent evidence of unexpected results for the claimed process and methods of use or unexpected properties for the claimed compositions.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references are cited to show the state of the art.
